GISBORNE GIRLS' HIGH SCHOOL DIGITAL CITIZENSHIP AGREEMENT

Digital technology continues to create opportunities to learn and connect our school community. Gisborne Girls' High believes in using a digital citizenship model to support safe, responsible and ethical use of digital technology and online spaces as it helps our online environment to be a positive place for everyone.

This agreement outlines Gisborne Girls' High School role in promoting the use of digital technology and online spaces for learning, and supporting online safety approaches. It also outlines expectations and responsibilities of students as a member of our online community. It will also be used to support restorative processes when necessary.

Gisborne Girls' High School recognises a student's right to receive a high-quality education in a safe online and offline environment.

We will do this by:

- providing information and support to ensure you are aware of, and able to meet, your responsibilities
- teaching a curriculum that promotes positive online safety behaviours
- overseeing students' use of the school's digital devices and platforms
- offering access to the internet and online services that is not unreasonably restricted
- using filtering software to minimise access to inappropriate online content
- allowing the use of technology for personal reasons during break times as long as it does not negatively impact on self and others
- supporting students who need help dealing with online incidents
- taking action when a negative online experience occurs between students even if it takes place outside of school hours
- securing the personal information, the school collects about you
- protecting your freedom of expression under New Zealand's Bill of Rights
- having a plan in place to support students when something serious or illegal happens. This might include getting in touch with the Police or Netsafe.

YOUR RESPONSIBILITIES:

As a student of Gisborne Girls' High school and a member of our community, it is expected that you will positively contribute towards making our school a place that is safe, respectful, and fair online and offline. This means enacting our school values in online spaces, and helping to shape a positive online culture. This is being a 'digital citizen'.

As a digital citizen, you will:

- **Keep it positive.** Always respect others online and communicate in a constructive way. Do not create or publish content that is indecent, threatening or offensive.
- **Protect privacy.** Do not disclose sensitive personal information about yourself or another person in any digital communication. This includes sharing passwords, accessing devices or online sites belonging to others without consent and taking screenshots and sharing this content without consent.
- **Act cautiously.** Anything you post or do online can influence what people think of you. Likewise, always think carefully about whether the information you see online is true. If you are unsure of something talk to a teacher.

- **Avoid online bullying.** Creating or forwarding content that is harmful, inappropriate or hurtful is never okay at any time, and may breach legislation (The Harmful Digital Communications Act). If you are harassing people by sending multiple messages this is also considered online bullying and is unacceptable.
- **Be security smart.** Keep personal information safe and secure by using strong passwords and not sharing them with others. This includes not accessing devices or online sites belonging to others without consent, nor taking screenshots and on-sharing their personal content without their knowledge and permission.
- **Check consent.** Before downloading software to the school network or onto devices, seek permission. Interfering with the school systems, digital technologies, equipment/network or the online security of another person is never okay at any time.
- **Recognise others work.** Follow copyright and intellectual property requirements by attributing references, images, text, audio and video appropriately.
- **Respect the rights of others.** Only record and share video, photo or audio content if the people in it know it has been taken and have provided their consent.
- **Use personal devices sensibly.** Keep your device(s) on silent during school hours and only use it outside of class time unless you have been given permission to use it during lessons.
- **Seek help.** Sometimes you or someone you know will feel unsafe or come across inappropriate or hurtful online content and behaviours. If this happens talk to a trusted adult about what can be done, or contact Netsafe directly. Please see the student and/or parent handbook for processes dealing with online incidents.
- **Additional Phone Usage Guidelines.**
In accordance with MOE regulations, Gisborne Girls' High School enforces the following guidelines regarding phone usage:
*No Phone Access: Students must not use or access a phone while they are attending school, including lunchtime and breaks. This rule also applies to students who are on school courses or visits outside the school grounds.
*Classroom Usage: Phones will not be visible in the classroom unless required by the Kaiako for learning purposes.
